

Amendments to the Specification:

Please amend the paragraph commencing at page 19, line 10 and ending at page 19, line 14, as follows:

C' ---As already explained, the return amplifier at ~~it's~~
the return amplifier's input end (left-handed end of
Figure 3), comprises a gain block amplifier 42. The
gain block amplifier 42 has ~~having~~ nine terminals, and
is connected to a power supply 50, through choke 48,
and capacitors 52, 54, and 56. A test point
transformer 80 connected to a test point 81 is also
connected between the main input line 10A and the four
lower terminals 58, 60, 62, and 64 of the gain block
amplifier.---
